

THE ULTIMATE DISSOLUTION SOLUTION

Trust the Instrument, Trust the Data with CD14

Small Footprint, Tough Construction, Reliable Results

- Tight tolerances, meticulous variability benchmarks and ASTM manufacturing standards assure durable construction and data integrity
- Fully complies with government guidelines and regulations, including 21 CFR Part 11
- Super Precision Vessel™ for consistent, precise vessel-to-vessel test results in USP Apparatus 1, 2, 5 and 6
- Avoid Corrective and Preventative Action with precise results and thorough documentation
- High throughput to test more, faster; the CD14 is ideal for high-volume labs or busy people in labs of any size
- For R&D, you swiftly receive trustworthy data to know that a manufactured product will pass inspection and get to market faster

Quickly and Easily Test Two Drugs at Once

Two "brains" for independent or joint programming; autonomous tubing for absolutely zero cross-contamination (quickly and easily run a brand-name product and a generic side-by-side)

Satisfy Your Need for Speed: Automate

Most users pair the CD14 with our Vision® AutoPlus™ & AutoFill™ automated solution. Its two precision pumps won't clog or jam, and it handles surfactants with ease. Set it and forget it.

Learn More Today

The CD14 completes dissolution testing quickly, easily and accurately. Contact your Teledyne LABS dissolution expert to see how this well-known and well-respected system can help you.
